

Home Activities

This month choose 2 activities. Be sure to write what your activity was in the box.

You may work with others in the class to accomplish an activity. For example, 3 people get together to learn a dance and teach it to the class.

Play outside - i.e. baseball, soccer, football, swim, ride your bike, play tag...	Learn a dance and teach it to the class.	Draw and label the water cycle. Bring it in to share with the class.	Make a graph showing video/TV time AND sleep times. Compare/contrast your findings. Do for one week. Bring in results.
Learn and perform 2 magic tricks.	Read an article in the local newspaper. Summarize it and give a response.	Create a word search for others to complete.	Memorize 10 States and their capitals. Be prepared to share with the class.
Make Jewelry - i.e. necklace, bracelet, earrings. Bring it in to share with the class.	Measure 5 items in the house. Find the perimeter, area, and volume. Report back with your findings.	Round a bill (grocery, restaurant) to the nearest ten, whole number, and tenth (dime).	Create a tongue twister like 'in an anemone' (from Finding Nemo). Be prepared to say it for the class!
Create an accurate map with the route from your house to school or to a friend's house.	Play a game with your family (i.e. Scrabble, Monopoly, Jenga) and take a picture of the final board or action.	Create a sculpture from recycled objects. Remember to 'name' your piece.	Prepare a 5 min speech to share with the class about something you are passionate about. Include posters
